

## ECO CLUB REPORT FOR THE MONTH OF JULY

Report: Eco Club Activity for World Nature Conservation Day

**Introduction:** In celebration of World Nature Conservation Day, the Eco Club at our school organized a series of engaging and informative activities during the month of July. Led by the Eco Club Incharge, Ms Harleen kaur (PGT BIOLOGY) along with the active participation of other teachers, these activities aimed to raise awareness about the importance of nature conservation among students from different classes.

**Objective:** The primary objective of these activities was to educate students about the significance of protecting the environment and fostering a sense of responsibility towards nature. By engaging students through interactive activities, the Eco Club sought to instill a deeper appreciation for the natural world and motivate them to become environmentally conscious citizens.

Activities conducted class wise are as follows\_

1. Extempore Activity (4th standard ): Date: [14th july .23] Participants: Students from all sections of class 4th took part in an Extempore Activity, where they had to speak spontaneously about various environmental topics. They were given specific themes related to nature conservation and were encouraged to express their ideas and thoughts on the spot.

2.Extempore Activity (5th standard ): Date: [17th july 23] Participants: Students from all sections of 5th class engaged in an Extempore Activity, where they passionately discussed different aspects of environmental conservation, highlighting their understanding and concern for environmental issues.

3. Debate (6th standard): Date: [18th and 19th july 2023] Participants: Students from all sections of 6th class participated in a lively debate on relevant environmental topics, allowing them to explore both sides of the arguments. The debate encouraged critical thinking and presented an opportunity for students to articulate their viewpoints on nature conservation.

4. Quiz (7th standard):  
Date: [21st July 23] : A stimulating quiz competition was held for 7th-grade students, covering a range of environmental topics, including biodiversity, climate change, and sustainable practices. This activity promoted healthy competition while enhancing their knowledge about nature conservation.

5. Poster Making (8th standard): Date: [21st July 23] The 8th-grade students showcased their creativity and artistic skills by participating in a poster-making competition. The posters depicted powerful messages about protecting the environment, serving as visual reminders of the importance of nature conservation.

6. Poster Making (9th standard):  
Date: [25th July 23] Participants: Students from all sections of 9th grade also engaged in a poster-making competition. Their posters focused on pressing environmental issues and suggested practical solutions for a sustainable future.

**Conclusion:** The Eco Club's activities for World Nature Conservation Day CELEBRATED EVERY YEAR ON 28TH JULY . Such activities were a resounding success, with active participation from students across different grades. Through these engaging activities, the students not only gained valuable knowledge about nature conservation but also developed a stronger sense of responsibility towards the environment. The efforts of the Eco Club and the dedicated teachers involved contributed to fostering a greener and more eco-conscious school community. The school looks forward to organizing more such initiatives to promote environmental awareness and action in the future.
